Dear Sir,

65 Pray see to it that a letter is written forthwith, already to put into Abbot Lawrence's hands, the moment he accepts. If this is not done with great promptitude, the New Organization will get the start of you in questioning him, and then proclaim that no political duty would be performed in the State, if it were not for them. Since the Mass Board are not Non Resistants, I earnestly wish they would prove their assertions, by doing this thing promptly. Do not let the cause of freedom be endangered by indifference or delay. The enemies of the Mass. have activity in great perfection. See to it that they do not snatch the standard while you loiter on the way. Yrs truly, L. M. Child.
